SUMMARY

Senior Frontend Developer with over 5 years of experience building high-performance, scalable web applications. Skilled in React, Next, Node, and more, I bring a strong foundation in frontend architecture, cloud integration, and end-to-end development. I have successfully migrated legacy projects to modern technologies, ensuring improved performance and maintainability. I excel at translating complex requirements into user-focused interfaces, with a recent emphasis on leveraging serverless technologies like SST and AWS to enhance scalability and deployment efficiency. Known for my adaptability in fast-paced environments, I thrive in startup settings where innovation and technical agility are essential.

SKILLS

- Typescript / Javascript
- React / Svelte / React Native
- NextJS / Remix / SvelteKit
- zustand / react-query / redux

- Tailwind / ChakraUI / MaterialUI / Ant Design
- Node / Nest / Express / Fastify / Bun / Elysia / Prisma / TypeORM

- DynamoDB / Postgres / MongoDB
- Jest / Cypress / testing-library
- AWS, SST, Seed, Docker
- ...and many others

PROFESSIONAL EXPERIENCE

Tech Quarter

Senior Software Engineer *with React, NodeJS, TypeScript, REST APIs, NextJS, TailwindCSS, AWS, IaC (SST)*   **Oct 2022 - Present**

As a subject-matter expert, I helped my team "revitalize" the UI of an app which has not seen technical updates for over two years. Migrated a NextJS app to a microfrontend architecture using single-spa and SST, as well as set up CI/CD pipelines for all the MFEs using Github Actions and Seed. Successfully delivered several projects featuring intricate UI functionalities.

Software Engineer *with React, NodeJS, TypeScript, REST APIs, NextJS, AWS, IaC (SST)*   **Oct 2021 - Oct 2022**

Led the development of the client's first self-contained system by decoupling the API, UI, and database from the monolithic architecture, transitioning them into a microservice and microfrontend structure.

Endava

Frontend Developer *with React, NodeJS, TypeScript, accessibility-focused HTML*   **Mar 2021 - Oct 2021**

Improved the accessibility of the website of Great Britain's biggest groceries and general merchandise retailer, insuring the best experience for users with visual impairment. Initiated and migrated a big part of the website from Javascript to Typescript.

iColdo

Frontend Developer *with React, Redux, NodeJS, JavaScript, MaterialUI, AntDesign, TailwindCSS*   **Aug 2019 - Mar 2021**

Contributed to a diverse range of projects, managing up to three simultaneously, across startups and established e-commerce companies, including both greenfield and legacy applications, such as:
- Web app for a Swedish automotive startup, streamlining the car buying/selling process;
- Web app for managing the fleet and deliveries for Romania's largest home improvement hypermarket;
- Dynamic property portfolio platform for a luxury rental company in the UK.

EDUCATION & CERTIFICATIONS

AWS Certified Cloud Practitioner (link)
May 2023 - May 2026

Master's Degree in Biodiversity Conservation
2017-2019
"Alexandru Ioan Cuza" University, Iasi, Romania

Bachelor's Degree in Ecology
2014-2017
"Alexandru Ioan Cuza" University, Iasi, Romania

PERSONAL PROJECTS

Legit Candidate (website)

Candidate verification service designed for recruiters. Crosschecks resume with data from GitHub, LinkedIn, etc.
Technologies: TS, NestJS, PostgreSQL, BullMQ, Prisma, TailwindCSS, DaisyUI, etc.

LeadFinderHQ (website)

Web app for discovering sales leads through keyword and location-based searches.
Technologies: TS, NextJS, react-hook-form, SST, AWS, etc.

...and some other projects are available here
